THROUGH EFFORT TO SUCCESS

CANOSSA HIGH SCHOOL
E-MAGAZINE- 2025-26

Saloni kadam - 9th A

Principal's Message

True education is a transformative journey that shapes not only what we know but also who we become. It is not merely the pursuit of academic excellence; it is the formation of character, values, and vision. As we journey together as a school community, we are reminded that authentic education touches both the mind and the heart. In a world that constantly measures success by achievements and recognition, we must remember that the greatest success lies in becoming responsible, compassionate, and courageous human beings. As Nelson Mandela wisely said, "Education is the most powerful weapon which you can use to change the world." At Canossa, we strive to shape young minds who will not only dream of a better world but will actively work to build one.

To our dear students, you are the heart of our school and the hope of tomorrow. Each one of you is uniquely gifted with talents and abilities waiting to be discovered, nurtured, and generously shared. Believe in your potential, persevere through challenges, and never be afraid to stand firm for what is right. As A. P. J. Abdul Kalam reminded us, “Dreams transform into thoughts and thoughts result in action.” Let your dreams be guided by integrity, discipline, and compassion. True success is not measured by marks alone, but by the values you uphold and the lives you uplift.

One of the greatest gifts a school offers is the opportunity to learn how to live together. In your classrooms, you sit beside classmates from different families, backgrounds, cultures, and personalities. Here, you learn to listen patiently, to share generously, to wait for your turn, to collaborate respectfully, and to forgive sincerely. These simple yet powerful lessons form the foundation of true humanity. When you respect a classmate who thinks differently, support a friend who struggles silently, or choose kindness even when no one is watching, you are practicing the highest form of education. However, living a life of love and humanity requires courage. Today’s world presents many distractions and negative influences that may tempt you away from your values—peer pressure, unhealthy habits, misuse of technology, and choices that promise quick pleasure but leave lasting regret. Be wise in the company you keep and careful in the paths you choose.

Have the courage to say “no” when something weakens your dignity or harms your future. Remember that your character is your greatest strength. Stay rooted in prayer, guided by your conscience, and open to the counsel of your parents and teachers. Choose what builds you, not what breaks you. When you stand firm in truth and goodness, you not only protect your future but also become a light that guides others.

Inspired by our Foundress, St. Magdalene of Canossa, we firmly believe that education must shape the heart as profoundly as it enlightens the mind. She envisioned an education that transforms the whole person, forming intellect, nurturing compassion, and strengthening the soul. A heart formed by love becomes a radiant light for society. Inspired by her enduring vision, we continue to foster a nurturing and value-centered environment where each child is cherished, formed in integrity, and prepared to serve the world with courage and compassion.

As we move forward together, dear students, remain firm in your values and fearless in your dreams. Do not allow difficulties, failures, or doubts to define you; let them refine you. Rise above limitations with confidence, face every challenge with courage, and choose generosity over selfishness. Be young people of conviction who stand for truth even when it is not easy, who choose kindness when it is not popular, and who work hard even when no one is watching. Let your mind seek excellence, your heart radiate compassion, and your hands be ready to serve. The future is not something you wait for; it is something you build. Become the light that shines with integrity, hope, and purpose wherever you go.

Sr.Sheela Varkey
(Principal)

जगण्यात मौज आहे

जगणे ही देवाने दिलेली सुंदर देणगी आहे. प्रत्येक दिवस आपल्यासाठी नवे स्वप्न, नवी आशा आणि नवे अनुभव घेऊन येतो. म्हणूनच जगण्यात खरोखरच मौज आहे.

जीवनात कधी आनंद तर कधी दुःख येते, पण या सर्व अनुभवांमुळेच जीवन रंगतदार आणि अर्थपूर्ण बनते.
लहानसहान गोष्टींमध्ये आनंद शोधणे हीच जगण्याची खरी कला आहे. सकाळचा ताजातवाना सूर्यप्रकाश, पक्ष्यांचे किलबिलाट, मित्रांसोबत केलेली मजा, कुटुंबासोबत घालवलेला वेळ – या सगळ्यांत जीवनाची गोडी दडलेली असते. आपण आनंदी मनाने प्रत्येक क्षणाचा स्वीकार केला, तर जगणे अधिक सुंदर वाटते.

जगण्यात आव्हानेही येतात. कधी अभ्यासात अडचणी येतात, कधी अपयश मिळते; पण त्या अडचणींवर मात केल्यावर मिळणारा आनंद वेगळाच असतो. अपयश आपल्याला शिकवते, मजबूत बनवते आणि पुढे जाण्याची प्रेरणा देते. म्हणूनच संघर्षाशिवाय जीवनाला खरी मजा येत नाही.
आपण इतरांना मदत केली, चांगले शब्द बोललो, प्रेम आणि आदर दिला तर आपल्या जीवनात समाधान निर्माण होते. इतरांच्या चेहऱ्यावर हसू आणण्यातही एक वेगळीच मौज असते.
म्हणूनच, सकारात्मक विचार, मेहनत आणि आत्मविश्वास यांच्या जोरावर आपण जीवनाचा प्रत्येक क्षण आनंदाने जगू शकतो. खरंच, जगण्यात मौज आहे – फक्त ती अनुभवण्याची आणि जपण्याची गरज आहे.

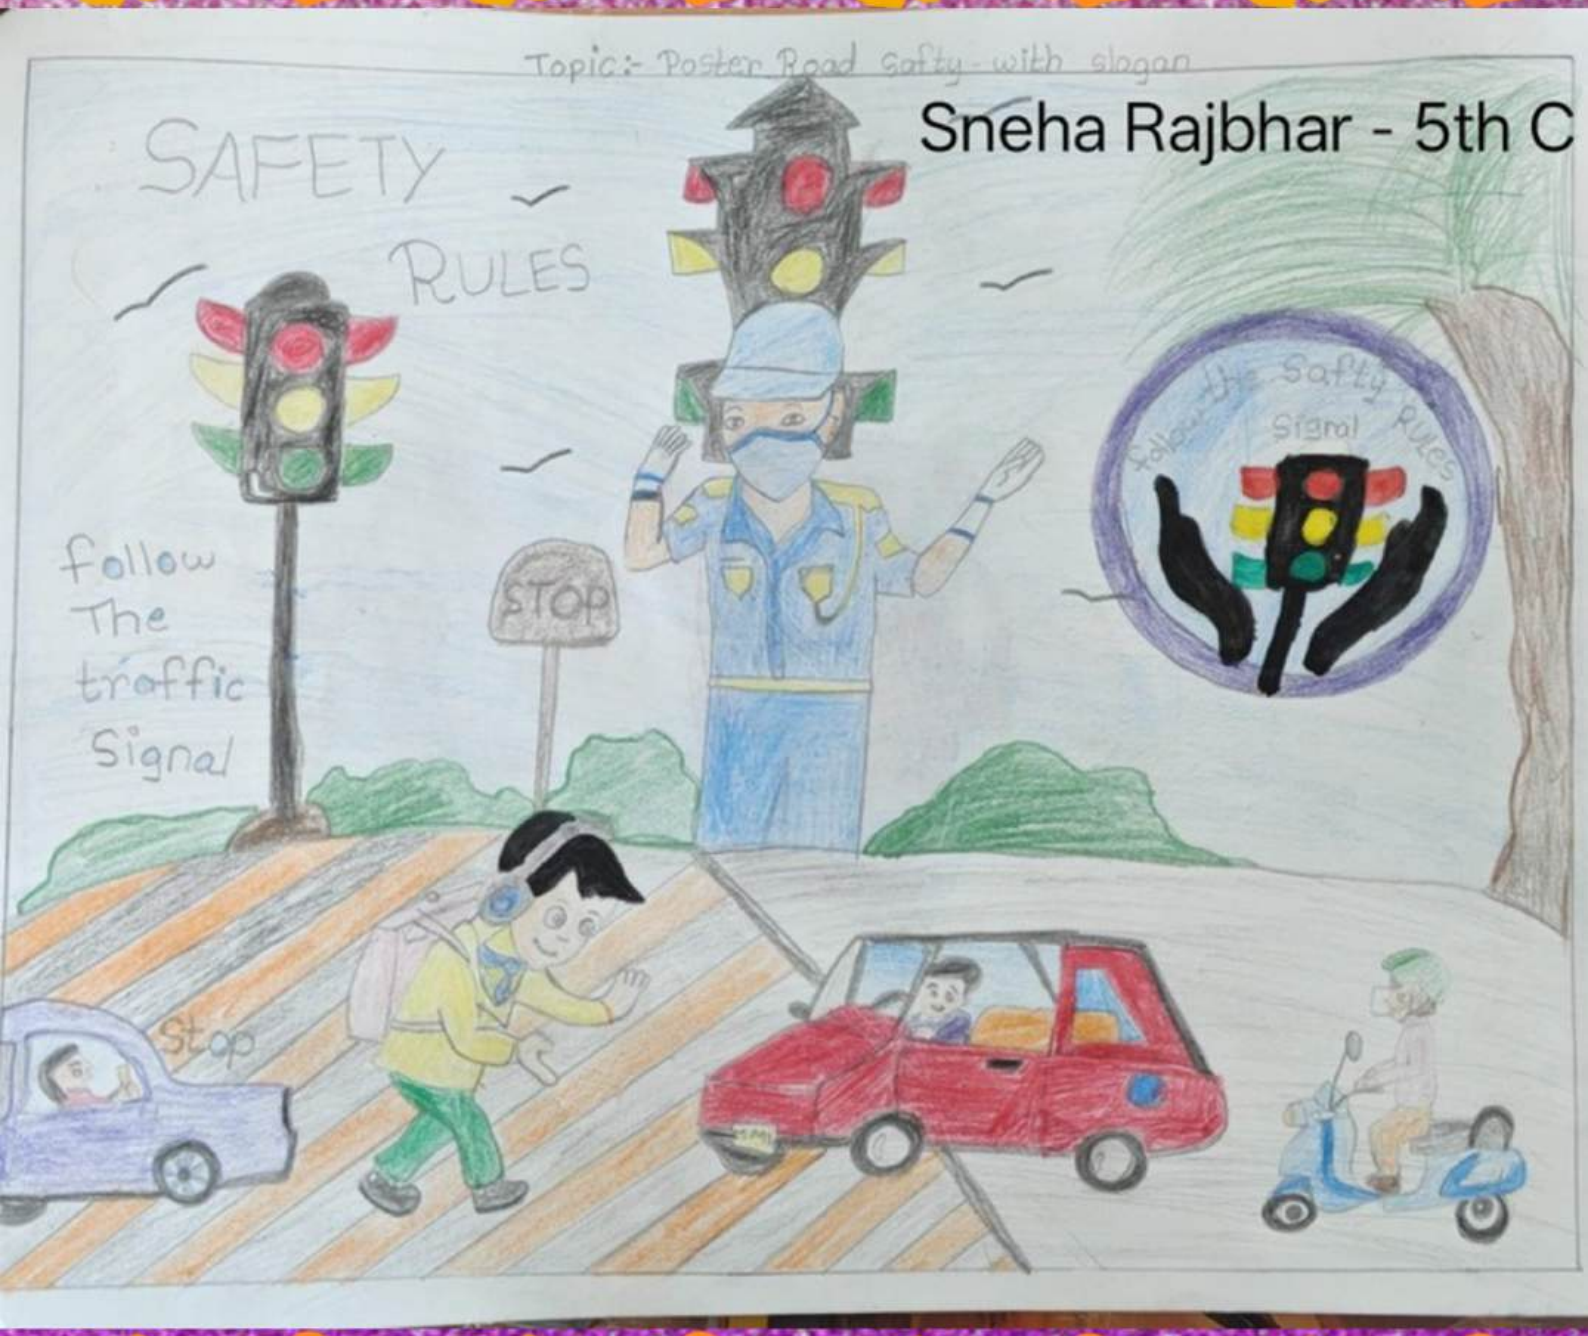

सौ, मृणाल संतोष इंदप

My Over-Smart Robot

I built a robot after school,
To help me look extremely cool.
With blinking lights and wires neat,
It woke up with a happy beep!
It solved my maths in seconds flat,
Much faster than my lazy cat.
It answered questions left and right,
And said, "Your homework's done tonight!"
It searched for facts like Google Assistant does,
So quickly that it made a buzz.
It learned new tricks from Machine Learning too,
Each day it learned something brand new.
I said, "Dear bot, please clean my room,
"It looked around and grabbed a broom...
Then suddenly it stopped to say,
"Why make a mess the first place, hey?"
My robot's smart, that much is true,
But sometimes it acts smarter than you!
Still it helps me every day-
Just not with chores... it runs away!

Towards a Zero Waste Future

The Eco Club of Canossa High School , in collaboration with Project Mumbai , has undertaken a meaningful initiative to transform the school into a Zero Waste School. Through this programme, consistent efforts are being made to reduce, reuse, and recycle waste, thereby minimising the school's carbon footprint.

{ECO CLUB}

As a part of this initiative, plastic waste and e-waste collected on the school campus are gathered every month and sent for recycling, where they are converted into useful products. In support of this endeavour, Project Mumbai has generously gifted the school a bench made entirely from recycled plastic. An organic composter has also been provided to process wet waste into natural manure within the school premises.

Students have actively participated in various eco-friendly activities such as beach clean-up drives, transforming old T-shirts into cloth bags, creating decorative accessories from discarded household materials and much more. The dedicated efforts of the Eco Club have played a significant role in fostering environmental awareness and motivating the school community to adopt sustainable practices and become responsible citizens of the planet.

RASIKA SHEKH VI-B

STOP WAR BRING PEACE

This world was made
For you and me
With beauty and nature
And life supreme

A world of peace
A world of love
A world so good
As pure as a dove

But then came sin
And man's evil ways
Destroying God's
world Night and day

They start a war
And are willing to fight
Taking innocent lives
With all their might

Children crying
People dying
Lives destroyed
By their firing

To every leader
Hear the cry of this child
Please stop this war
It has gone too wild

War is on, Peace is gone
O God bring back my world
When I was born.

Coconut Shell Creativity:

Transforming Nature into Art

Nature has always been a great teacher, offering us countless gifts that support life and inspire creativity. Among these gifts, the coconut stands as a remarkable example of usefulness and generosity. Often called the “Tree of Life,” the coconut serves many purposes in our daily lives. Its refreshing water nouishes the body, its flesh enriches our food, and its oil is valued for health and care. Even the husk and shell of the coconut are useful. What may appear to be a simple shell is actually a natural resource filled with possibilities.

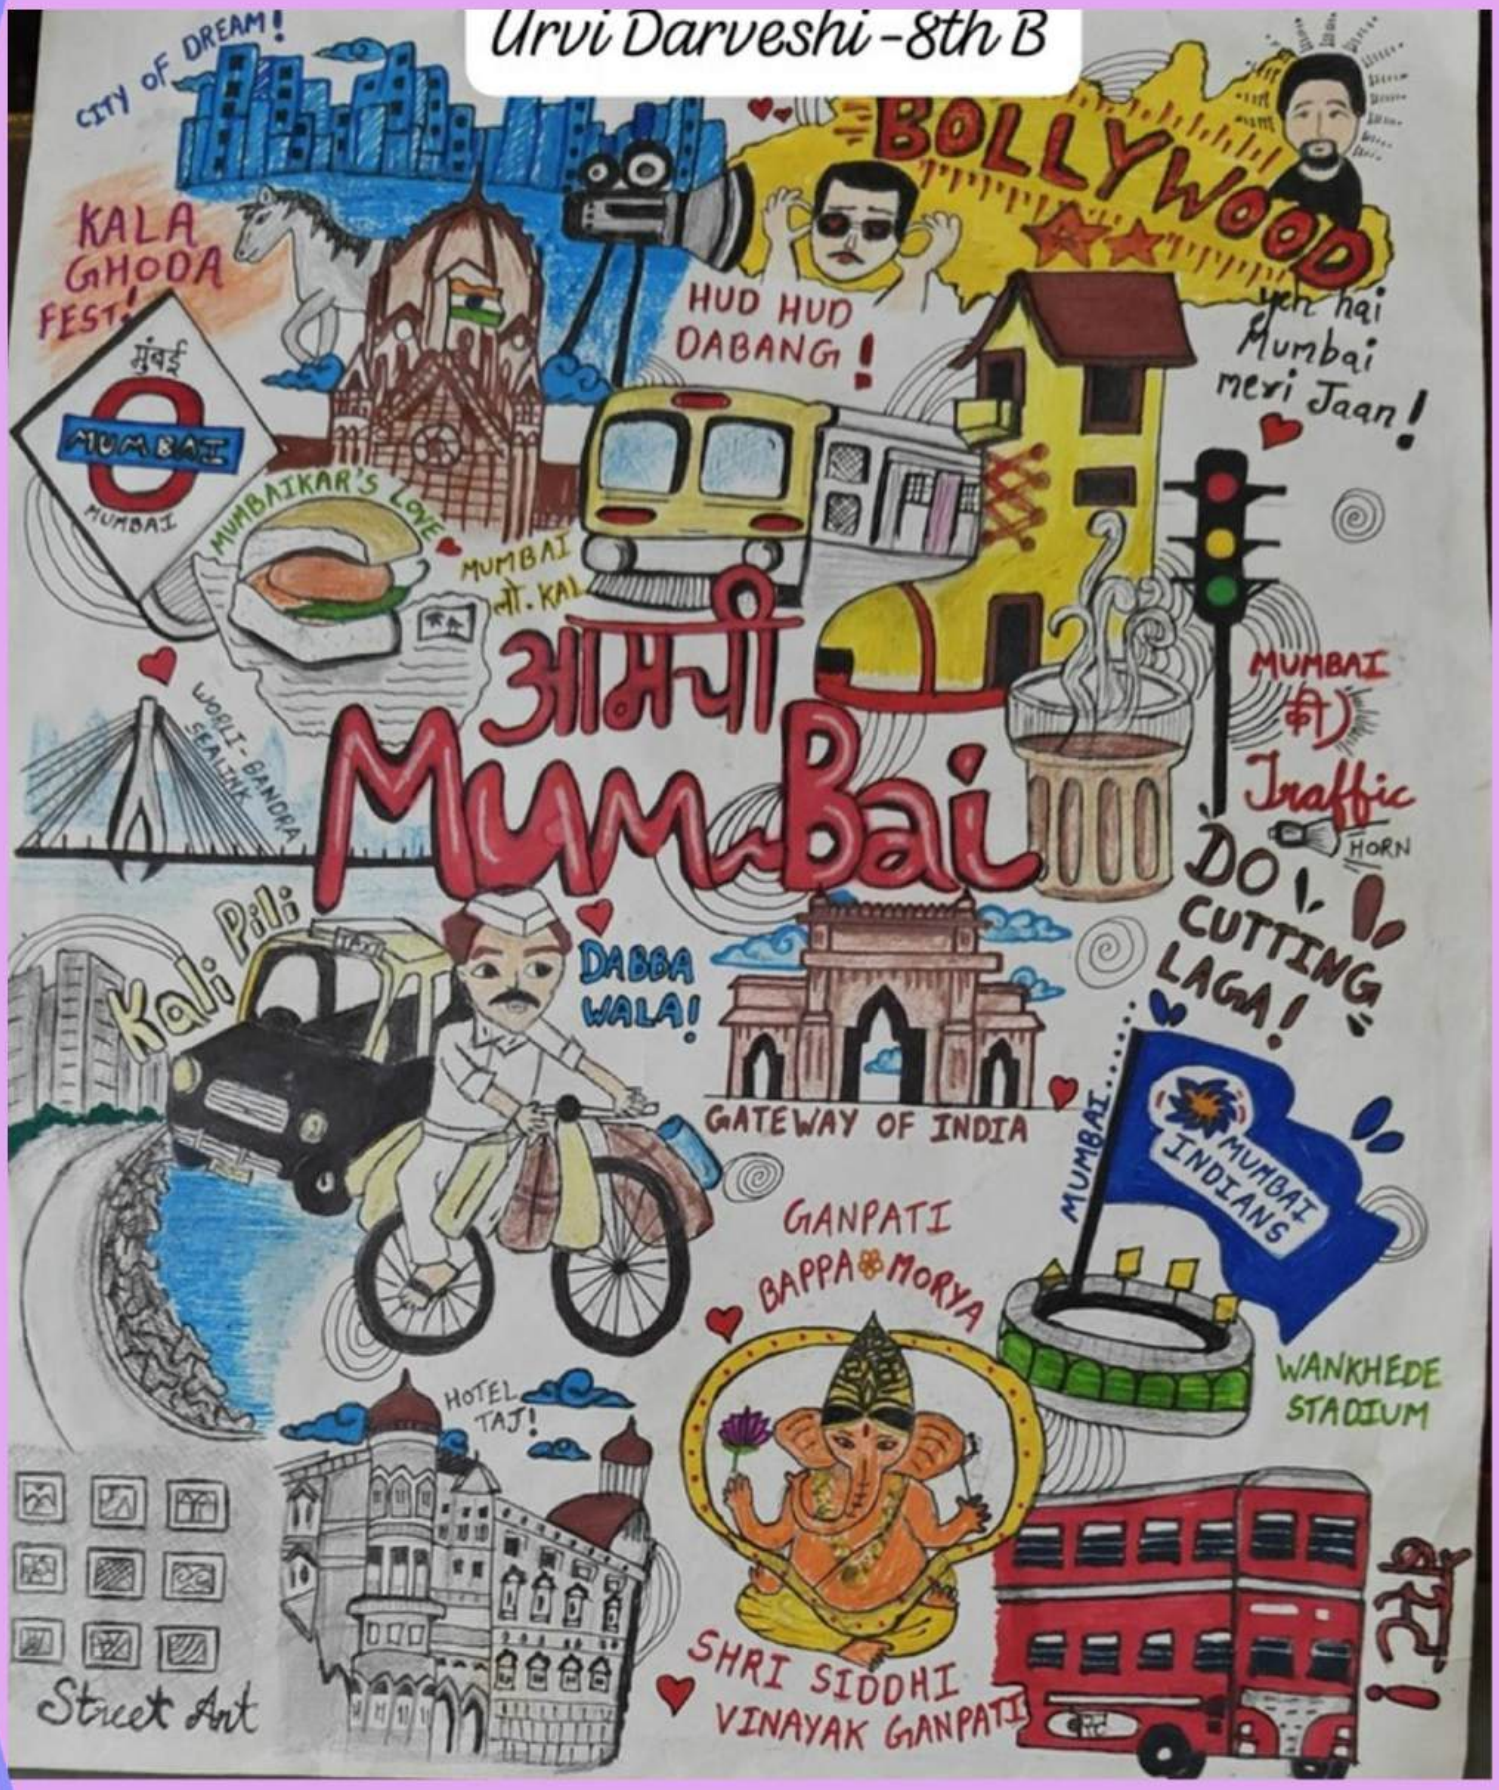

Keeping this in mind, our students participated in the activity "Coconut Shell Creativity," where they transformed discarded coconut shells into beautiful and useful items such as pen holders, decorative pieces, and small utility articles. This activity reminded students that creativity does not always require expensive materials. Sometimes the most ordinary objects can be turned into something special through imagination and effort.

The activity also carried an important environmental message. Coconut shells are natural and biodegradable, making them an eco-friendly alternative to synthetic materials. By reusing these shells, students learned the value of recycling and caring for the environment. Their creations reflected how creativity, sustainability, and appreciation for nature can come together in meaningful ways.

Nature

It is beautiful, it is love.
It is a place of peace,
Not for any one.
It gives us many things,
But we give back destruction.
It is home for many,
It is nature,
It is nature.
I can't think of,
Anything more beautiful,
I can only think,
About it's beauty.

My father

My father is kind,
With a smart mind.
He holds my hand,
And helps me to stand.
He works all days,
But still loves to play,
He tells me stories,
Of dreams and glories.
I love my dad,
He makes me glad.

सोशल मीडिया एक भूत

सोशल मीडियाच्या भुताने जर जग जवळ आणलंय , तर मनाने फार दूर केलं आहे .

या भुताने जर जगण सोपं केलयं ,तर जगण्यातला आनंद हरपून घेतला आहे .

प्रचंड नवनवीन मित्र बनवलेत ,तर जवळच्या जीवलगांपासून अंतर वाढवल आहे .

सोशल मीडियाच्या भुताने मित्रमैत्रिणींसोबत खेळ खेळण्यातली मज्जा आणि ऊर्जाच नष्ट केली आहे .

मोबाईल नावाच्या निर्जीव प्राण्याने त्यातली गंमतच हिरावून घेतली आहे .

सुट्टीतल्या आनंदाला ऑनलाईन राक्षसाची नजर लागली आहे .

सोशल मीडियाच्या रावणाने मानवाची बुद्धी भ्रष्ट केली आहे,

अंतर मनातील निरागसता संपुष्टात आली आहे.

कुरघोडी , स्वार्थाने आगेकूच केली आहे.

शोषण ,फसवणूक अशा बऱ्याच गुन्ह्यांनी सोबतच केली आहे .

नवपिढी नव्यायुगाची यात खोल रुतत चालली आहे.

मृगजळाच्या आहारी जाऊन स्वतःचे आयुष्य प्रकाशाऐवजी अंधाराकडे वाहवत चालली आहे .

सुविचार , सुबुद्धी , सामाजिक बांधिलकी , माणुसकी या सारख्या मूलभूत भावनांचा मनुष्य प्राण्याला विसर पडला आहे.

या भुताचा फक्त प्रगतीसाठी वापर करा अधोगतीसाठी नाही.

The Mystery of the Glowing Forest

Radha was a brave and curious schoolgirl. She was very happy because her father, Major Raman Rao, a strong soldier in the Indian Army, had come home for holidays.

One morning, they decided to go on a forest trip with their loyal dog, Pluto. They packed food, water and a tent for camping. Radha loved walking through the forest. She saw tall trees, colourful mushrooms, tiny insects and heard birds singing. It was a wonderful day.

As night came, Radha saw some glowing green lights deep in the forest. “Papa, what are those lights?” she asked. The lights were not moving like torches, they were still and bright.

Major Rao held his flashlight and said, “Stay close, Radha”. Pluto barked and ran ahead. When they went near, the lights suddenly disappeared. They only saw some mushrooms on a tree trunk.

The next morning, they met Detective Shyam Sundar, Major Rao’s friend. He was a very intelligent man and also a biologist. After hearing their story, he smiled and said, “Those are glowing mushrooms, called ghost mushrooms or foxfire. They shine in the dark because of a natural light made by the fungi.”

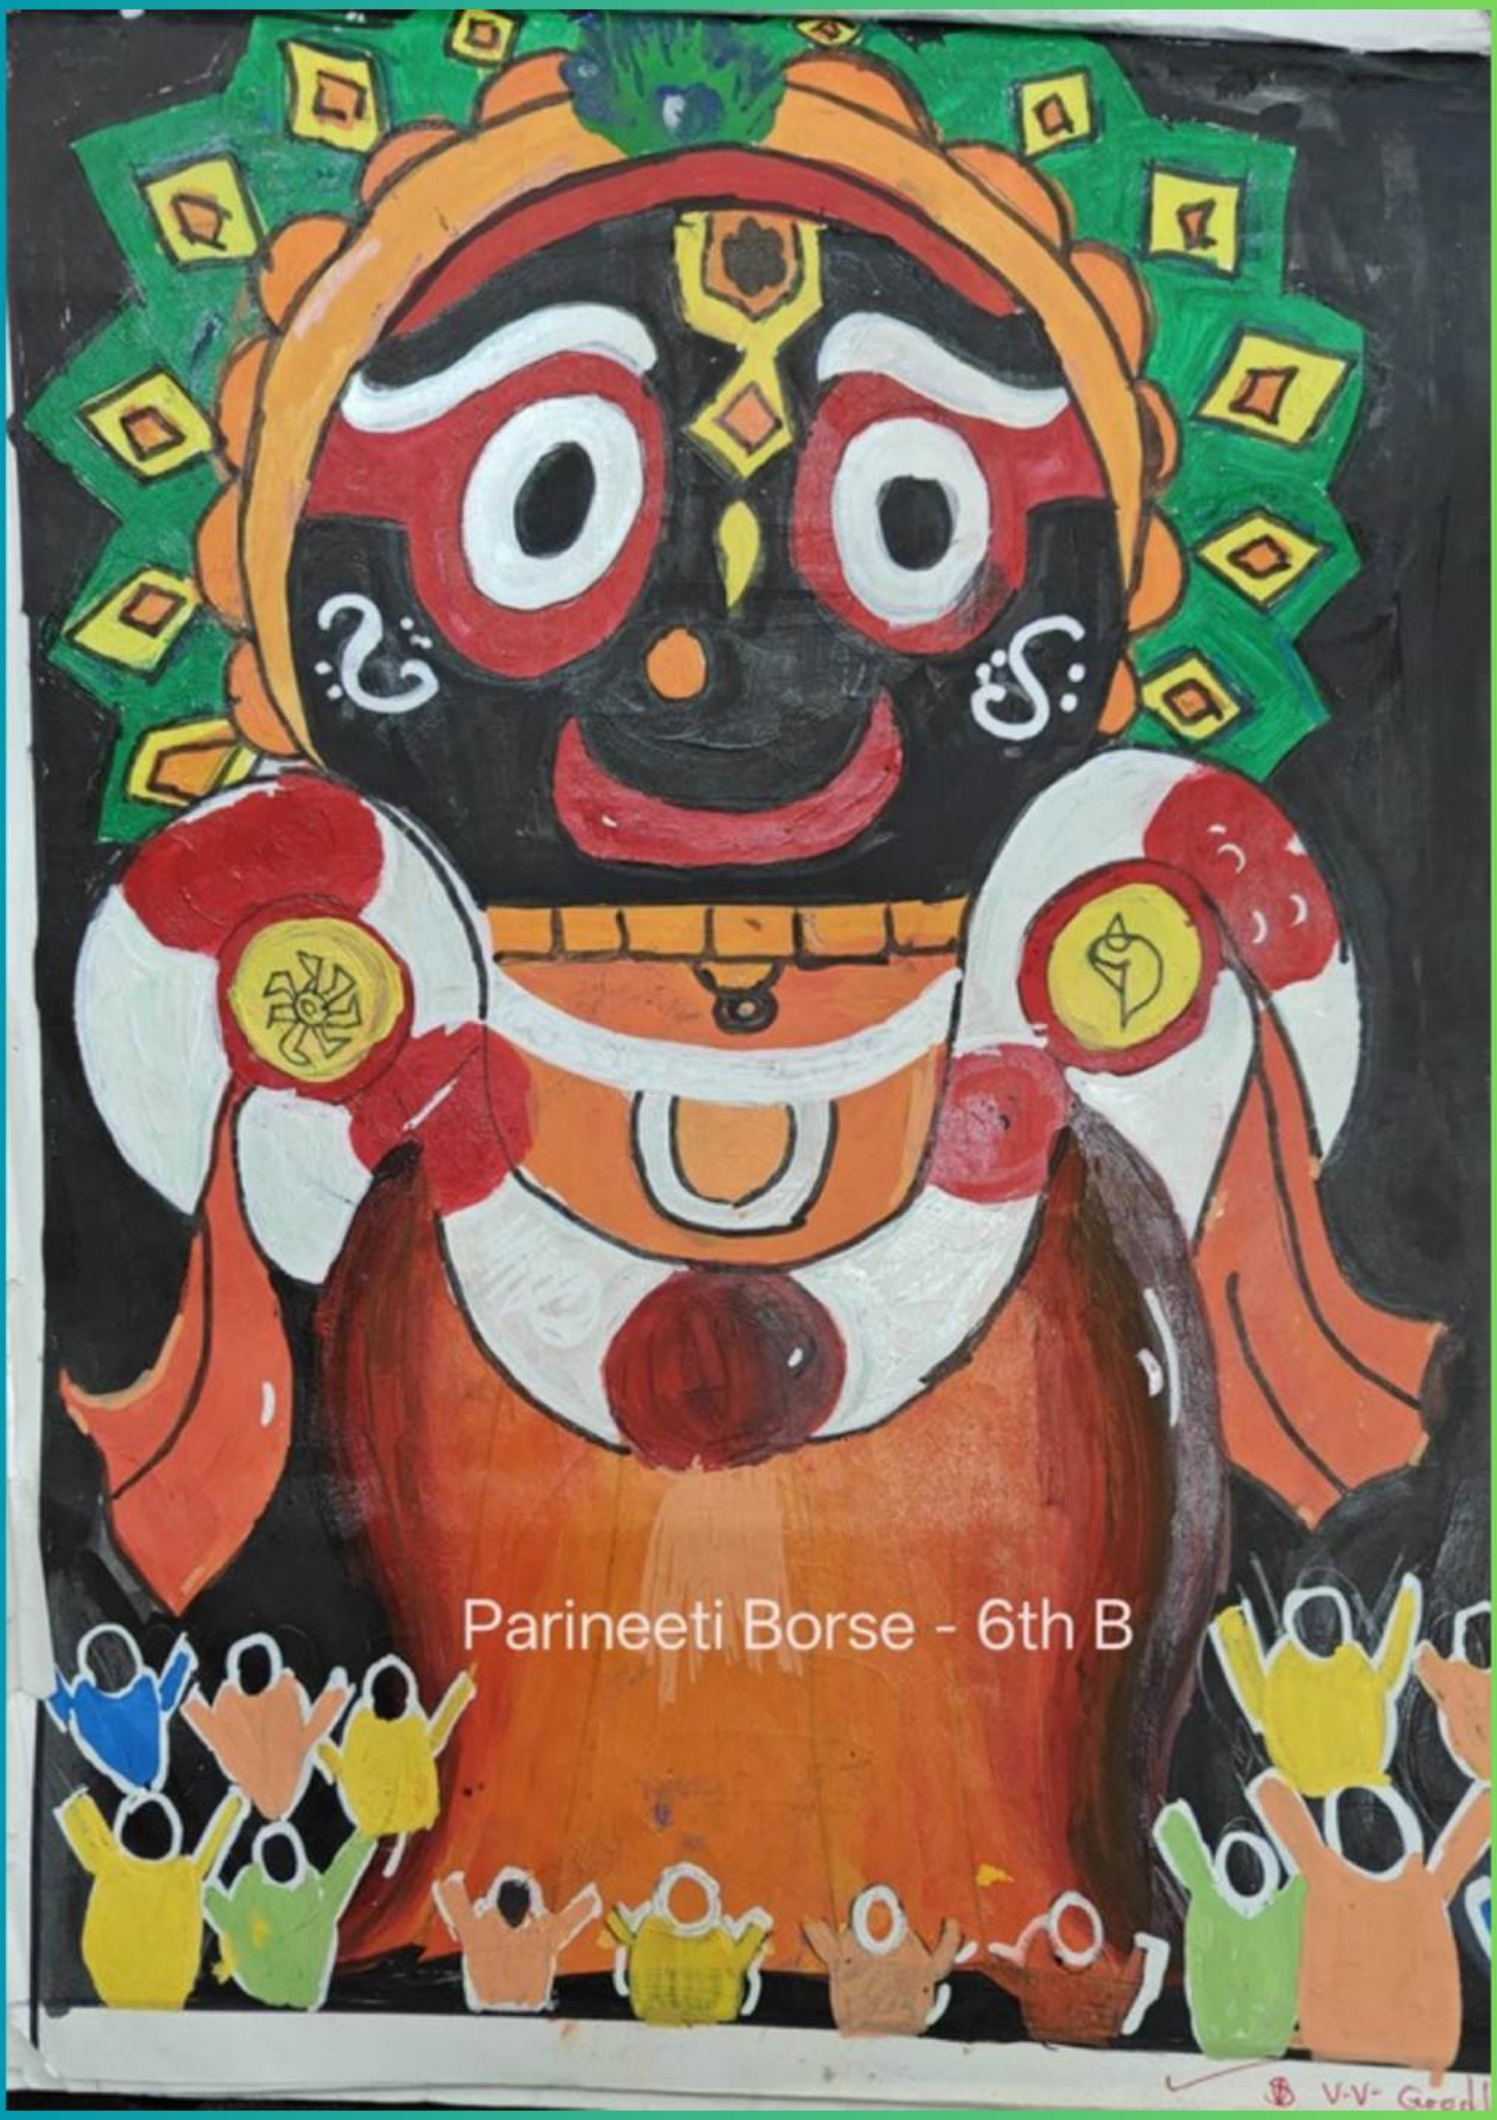

Radha was amazed. “So, the mystery was nature’s magic!” she said.

Her father laughed, “Yes, my brave girl, you helped solve a forest mystery!”

Pluto barked happily, as if he agreed.

“La vie est pleine de leçons” (Life is full of lessons):

La vie est un livre aux pages infinies,
Chaque jour écrit ce que l’on vit.
Dans les joies comme dans la douleur,
Se cachent des leçons pleines de valeur.

Les erreurs ne sont pas des fins,
Mais des chemins pour devenir meilleur demain.
Chaque chute apprend à se relever,
Chaque doute aide à avancer.

Même dans l’ombre, une lumière apparaît,
Pour guider le cœur quand il est fatigué.
Car la vie, avec ses hauts et ses bas,
Nous enseigne qui nous sommes, pas à pas.

माझा अभिनय शिकण्याचा एक प्रयत्न

सुरुवात – मी इयत्ता ४ थी मध्ये असताना अभिनयाचे फ्री सेमिनार अटेंड करण्याचा योग आला. ते मला आवडले आणि मी अभिनय शिकण्यासाठी क्लास चालू केला. वर्षभराचा क्लास संपल्यानंतर एक शॉर्ट फिल्म, एक छोटंसं बालनाट्य केले परंतु पुढे काहीच होत नव्हते. दरम्यान "दिंडी'झ"अभिनय छंद वर्ग जॉईन केला आणि तिथून एक छोटासा प्रवास चालू झाला. इंटर क्लास कॉम्पिटिशन, पथनाट्य, अभिवाचन स्पर्धा, एकपात्री नाटक स्पर्धा, डान्स स्पर्धा आणि आता एक छानसं बालनाट्य करीत आहे. इंटर क्लास स्पर्धा करताना वरचा बॅच पटकावला. ग्रुप अभिवाचन स्पर्धेचे पहिले बक्षीस मिळाले, पथनाट्यामध्ये पहिले बक्षीस मिळाले, तर एकपात्री "ती फुलराणी" हे अनेक स्पर्धेमध्ये भाग घेताना सादर केले.

मुंबई मराठी ग्रंथ संग्रहालय आयोजित वक्तृत्व स्पर्धेत मी माझ्या शाळेतर्फे भाग घेऊन तिसऱ्या क्रमांकाचे बक्षीस मिळवले. आणि आता कृणाल दळवी सरांनी लिहिलेल्या आणि दिग्दर्शित केलेल्या "दिव्याखाली दौलत " ह्या एका छान बालनाट्यात काम करत आहे ज्यामध्ये माझा एक छोटासा रोल आहे पण त्याला प्रेक्षकांची चांगली दाद भेटत आहे. आतापर्यंत आमच्या नाटकाचे ६ प्रयोग झाले आहेत आणि त्याचा महाराष्ट्र राज्य बालनाट्य स्पर्धेचा मुंबई विभागातून पहिला क्रमांक आला आहे, व आमच्या बालनाट्याला एकूण १४ पारितोषिके भेटली आहेत.

My Mother

My mother is my shining light,
She hugs me warmly and holds me tight,
When I feel so sad or feel so small
My loving mother helps me stand tall.

She wakes up early every day,
To help me learn and guide my way
She cooks my food with love and care,
And shows me kindness everywhere.

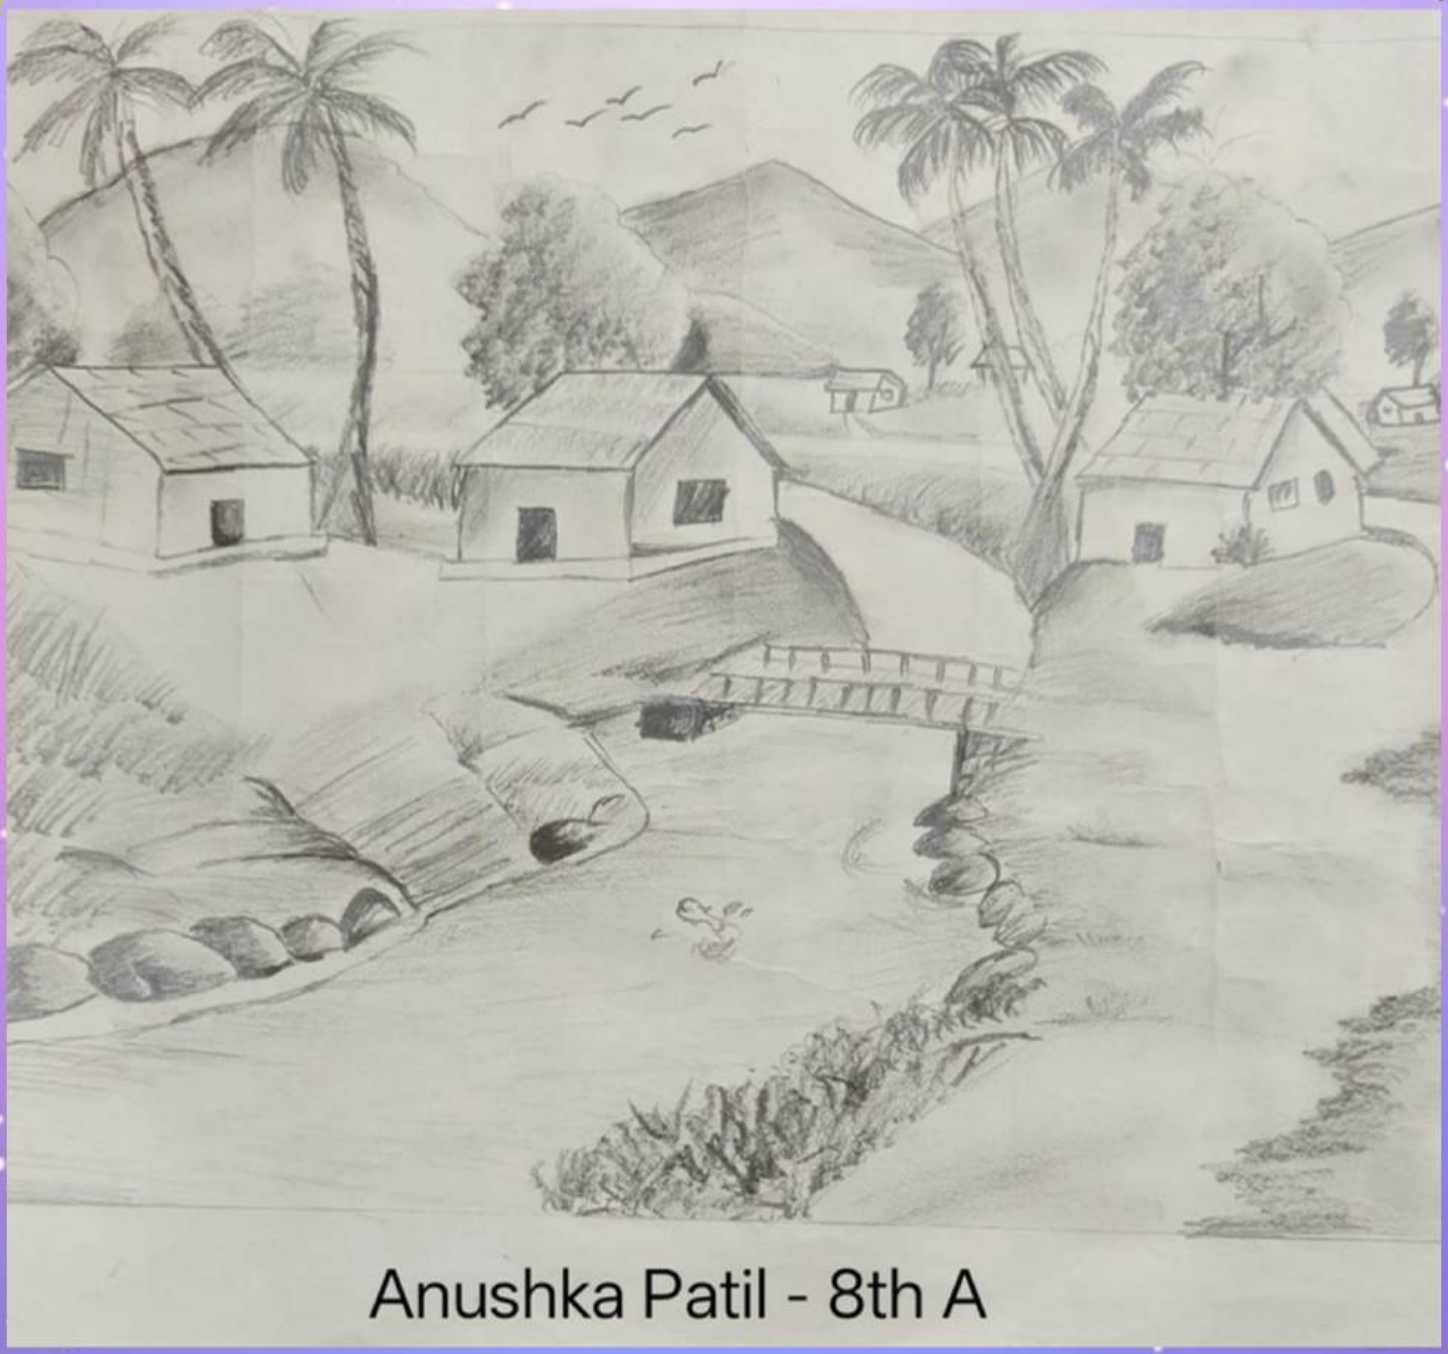

When I am wrong, she helps me see,
The better person I can be
She teaches truth and what is right
Like a bright star in the night.

Her smile make my worries fly,
Like clouds that pass across the sky
Her gentle voice is calm and sweet,
It makes my happy heart skip a beat.

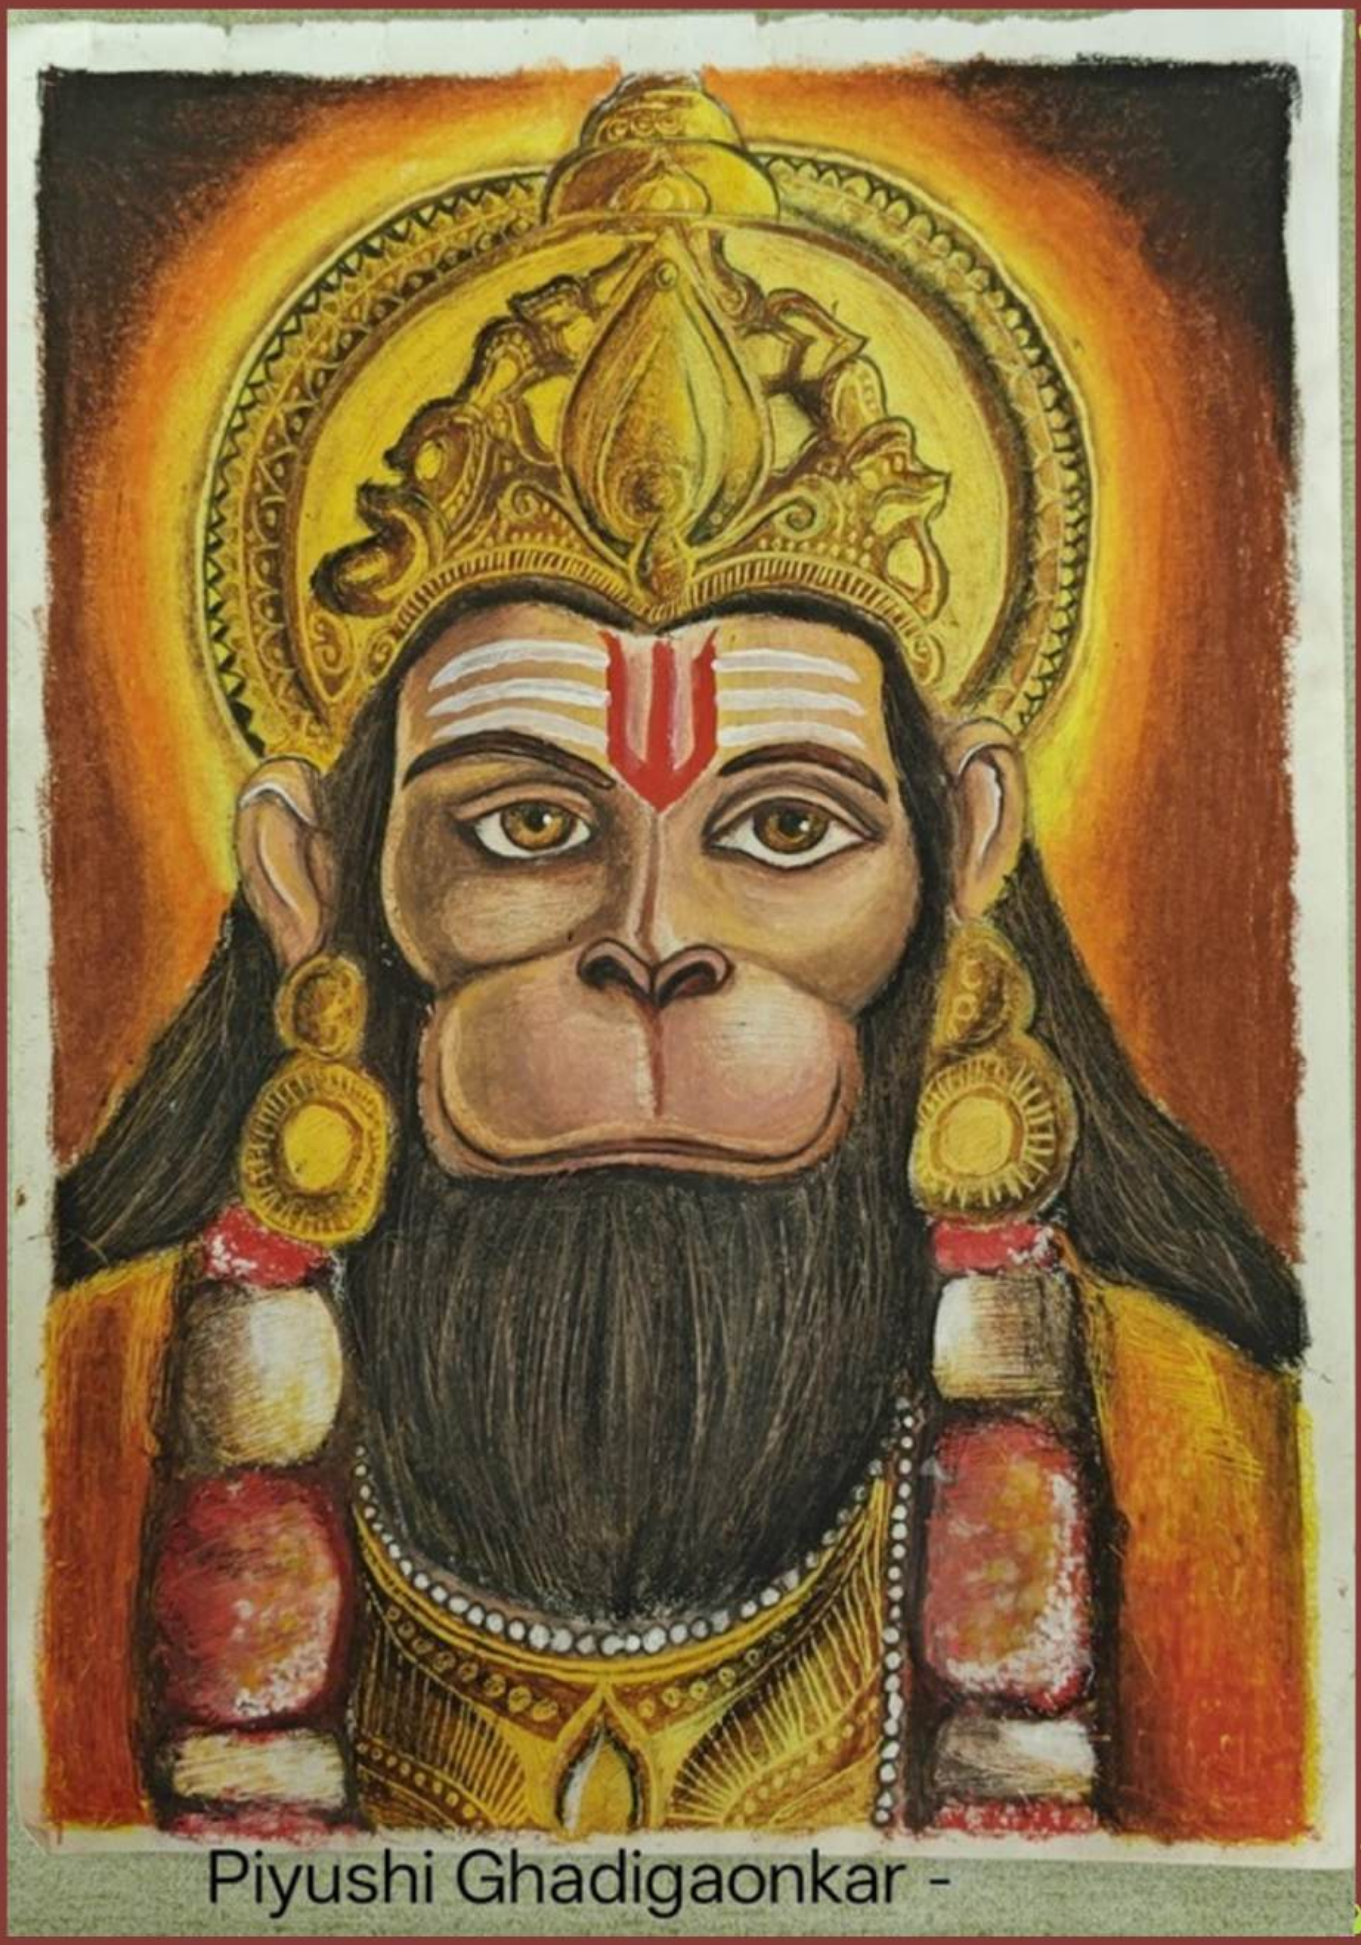

I thank my mom for all she does,
For all her care and loving hugs
No treasure in the world could be
As precious as my mom to me.

GLOBAL WARMING !

This has been a problem
People have feared for years.
However, no one understands
That in the end,
We will all be in tears.

In a way, the olden times
Were much better than ours,
Even without phones, computers,
The Internet..... or cars.

Today, people
Do not care about trees,
Plants, animals, mountains or seas,
Rivers are drying up
Plants are refusing to grow
Moreover, we humans
Are treating Mother Nature like a foe.

Greenhouse gases are increasing,
This is like a victory for the sun.
However, even after knowing this,
Nothing major has been done.

So now is the time
to wake from our dreams,
And defend our environment
Together in teams.
To defend our planet,
Global warming has to stop now,
And just in a moment,
Let me tell you how.
The plan is as follows:
We plant more trees.
In addition, all our cars
should be replaced
by electric taxis.
If we all work towards it
We can save our planet.
Else, we will have to see
our dear planet
Distintegrate into dirt!

Riddles

*Can you guess the following riddles?

1. I am White with a yellow face, the longer I stand the shorter I grow. I die if there is a strong breeze. What am I ?

2. I'm not living, but I can grow. I don't have pair of lungs, but I need air. I'm not alive but I die with water. What am I ?

3. I have no wings, but I can fly and move swiftly. I have no eyes, but when I cry, I make people happy. What am I ?

4. Two sisters are we, one is dark and one is fair. Dwelling in twin towers, we're quite a pair . One is from the land and one from the sea. Tell us, tell us, who are we?

Mishika Dhanuki
